The debut record for **Deborithmicos**, directly from Barcelona, is the most straight hip hop release for Pulpa so far, a hot, organic and groovy affair that is a collection of hits, where soul, hip hop and black music collide.

Dimarts i Dijous (Pulpa6) contains all the ingredients to become a classic, and this is only the beginning for **Deborithmicos**. "I´m Out" is an unstoppable good mood megaphat track, with **Cise Star & Akin (Cyne)** rapping with attitude & heart. In "Won´t Stop" **Omniscent** is in charge, delivering his usual deep flow, with again, a magnificent samples selection and some incredible scratches by top dj **Buddy Peace**. Side A ends with another slice of fruity flavour, "DOA", where **Non Genetic (Shadow Huntaz)** digs it with supreme style.

Side B starts with "Gigolo" and some bossanova samples, a perfect introduction for **Clint Malik**´s smooth and elegant rhymes, again a perfect track where R&B is on charge. "Def Do Us Part" introduces the rhymes of **Dicap**, a colourful daisy age artefact, to shake bodies. And finally, "Tomber", where french female rapper **Pumpkin** sets the mood for a jazzy hip hop fantasy.

Dear friends, this is a unique and top release, a real discovery & passionate letter of love to music without frontiers...
