About this release

Ever since his 'Terrestrial Variations ep' we have been big fans of Nebraska's work. From the vaults of Nebraska comes this delicious 4 track house EP. This was supposed to be released some years ago, but never made it past promo stage as the label folded before release.

'Satellite Variations' brings us cut up disco jazz on 'My Father' and 'Soft Return', melancholic disco on 'Fluorescent Door' and finally a soul drenched mid-tempo gem entitled 'The Other Side'. Nice!

For fans of Rick Wade, Theo Parrish, Trus'Me et al.
