About this release

Amsterdam's most promising is back.

The voyage continues. After dropping his debut album Voyage Direct, Tom Trago now drops two favorites from his live set.

Side A is an extended disco version of Use Me, morphing in to and out of the original like butter. Clocking over 8 minutes Use Me Again becomes somewhat a modern take on the original disco version. It's got enough drive to make a dance floor go crazy.

Side B meanwhile is an exclusive from his live set. Here he strips the classic "Over & Over" to the minimum before sliding into the original groove only for a moment, only to continue to ride the rhythm again. Proper club business
