About this release

Rick Wilhite and his Vibes new&rare music record store have been a main source in Detroit for over 17 years. His store is the place to go for many Detroiters looking for new soulful, electronic music. And as a DJ and promoter Rick has been holding it down for years. Next to that he mostly known for his affiliation with Three Chairs (together with Kenny Dixon Jr & Theo Parrish) and for his solo recordings, under his The Godson pseudo. Now its time for Rick to get his peers and friends in the mix for his first compilation, aptly titled Vibes new&rare music. The compilation is spread out over four 12"s, which will be followed by a compilation CD with exclusive tracks and features only the best of Chicago and Detroit electronic music. All tracks are new and exclusive.

3 Chairs affiliate Marcellus Pittman, known for his releases on Sound Signature and FXHE amongst others, kicks of this series with a lush track. Its playful groove forces you to just play this over and over again! Next up is Chicago house legend Glenn Underground, creator of Strictly Jaz Unit. On 'Ninja' he is definitely jazzing it out, showing the ninjas the way the holy land! With Vincent Halliburton its back to the D. Vince has been around for a while, but only releases once in a while, on labels like Ferris Park and Reggie Dokes' Psychostasia. With 'Something I Feel' he is sure to gain a bunch of new fans. A steady late night club banger that just goes on & on!

Heavy and essential first EP. Are you ready for the next one?
